Summary of topics discussed:

1. **Remote HF Antenna** – The AV680 antenna for the Remote HF station is now on back order until June 21, 2021. We will re-evaluate the need at the May 2021 Board meeting. Meanwhile, Tom Shrilla presented a number of antenna options. Based on the band coverage, the need for a tower mount antenna as to not interfere with lawn mowing, and cost, a motion was made by Tom to purchase a used MyAntenna OCF 8010E-3K and associated hardware. Paul second the motion and members present approved.
2. **Coax** – The feedline for the 2 Meter repeater is 15 years old and is not the preferred type for duplex operation. It was recommended to purchase 200' of coax as part of the repeater maintenance project.
3. **Next BOD Meeting** - The next BOD meeting will be on February 6, 2021 at 1:00 PM. If a club member is interested in attending, please email [secretary@tamiamiarc.org](mailto:secretary@tamiamiarc.org) and Patti, N4IGI, will send you the meeting information.
